A media release from

Australian Barley Technical Symposium (ABTS) & Varietal Accreditation

Barley Australia would like to congratulate the organising committee of the 18th Australian Barley Technical Symposium, which was held in Hobart from the 3rd to the 6th of September 2017. The quality of the presentations and the opportunity for global networking was invaluable for the Australian Barley Industry.

It was pleasing to hear the importance of Malting Barley Varietal Accreditation Systems reinforced in key presentations at the symposium by Clare Johnson from GRDC, Gary Hanning from ABInBev Global (USA) and Yin Hua from Tsingtao (China).

Barley Australia continues to work with key stakeholders to improve and strengthen the Australian Malting Barley Varietal Accreditation system, which is on par with other accreditation systems around the globe. This rigorous system is highly valued by both Domestic and International Malting and Brewing Organisations and is essential to maintaining the high-quality reputation of Australian malting barleys.
